### VEHICLE SAFETY SECTION INSPECTION CONSOLE TRAINING

The Vehicle Safety Section is sponsoring the Inspection Console Training for the new on-line program. This training is for those persons who have been unable to attend previous training sessions. This is mandatory for use of the Inspection Console. Please review the following schedule and determine which training session will best fit your needs.

Class sizes are limited to 25 and require an RSVP. You may RSVP by calling the Safety Inspection Office at 801-322-1390 to reserve your place. UHP reserves the right to cancel any sessions not filled.

When you RSVP, advise the office of the session, date and time, and number of individuals that will be attending. This will enable us to prepare logon information before the scheduled session.

### INSPECTOR RECERTIFICATION REQUIRED

Beginning March 1, 2005 an inspector, seeking re-certification of his/her safety inspection authority, will be required to obtain re-certification utilizing one of three available options.

**Continued on page 2**

Continued from page 1

\* **Option #1** \* – Attend the entire 16-hour safety inspection course and pass the final test with an 80% or higher score. This course is currently available through the Regional Educational Institutions. Fee - \$90.00 includes cost of testing.

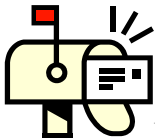

\* **Option #2** \* – Attend a 4-hour refresher training course available through the Regional Educational Institutions and pass a 'challenge test(s)' with an 80% or higher score. Fee - \$40.00, does not include cost of test(s).

\* **Option #3** \* – Participate in either an on-line safety inspection re-certification course, or purchase and complete re-certification using the newly developed 'cd' formatted training. This 'cd' formatted training will be available through the Regional Educational Institutions. Fee - \$30.00 on-line or 'cd' formatted training. No final or challenge test required, however, quizzes are contained throughout the 'cd', which do require a score of 80% or greater to proceed to the next section. Upon completion of the 'cd' formatted training the student will print up the final quiz cover sheet, which will indicate that the student has passed, and bring it to the Regional Educational Institution for processing.

It has long been a concern of the Utah Highway Patrol that many inspectors have been certified a number of years with no follow-up training provided. This training is being made available in an effort to educate and upgrade inspectors and keep them current on new developments in the Safety Inspection Program. In order to maintain the integrity of the Safety Inspection Program, and to ensure that Utah citizens are receiving a proper safety inspection, this new training requirement is being implemented statewide.

A currently certified inspector may utilize any of the three options, for re-certification, beginning two months prior to his/her certification expiring.
